## GORGEOUS COLCHICUMS

Bloom indoors without soil, without water, without care.

Place on mantle, window ledge or table, and with no further attention exquisitely lovely blooms will appear. Use for gifts and prizes! Plant outdoors in the fall after blooming, and in the spring luxuriant green foliage appears. When this foliage dies, dig up the bulbs and blooming may be repeated indoors.

## LYCORIS SQUAMIGERA

Resurrection Lily

(Hardy Amaryllis Halli). Attractive green foliage which appears in the spring, ripens and disappears by July. About a month later, the flower stalk magically springs from the ground to a height of 2 to 3 feet, developing an umbel of large Lily-shaped flowers, 8 to 12 in number, of a delicate lilac-pink shade. The bulb is perfectly hardy. In planting cover crown with about 4 inches of soil.    **65c each; 3 for \$1.50; \$5.00 per doz.**
